Print on 8.5x11 paper. For cards use a light card stock or heavy paper without gloss. For prints use photo paper (matte works best).
Your printer may tell you the image area is too big, but print anyhow. You will make only 2 cuts - use the red lines for guides.
Your finished size is 10x7, Fold in half. Find the 5x7 envelope you have been saving for almost ever and make good use of it. Card
may be framed as is, or you may cut it in half. Happy Holidays!
